

Amendment
Serial No. 10/675,662

IN THE DRAWINGS:

Enclosed please find replacement sheets for Figures 1 through 6. These replacement sheets include the same drawings that were previously submitted. The only difference in the replacement sheets is that the reference numerals have been redrawn such that they are suitable for issuance with the above-captioned patent application.

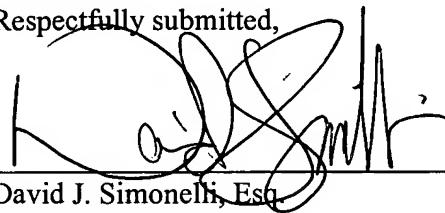

REMARKS

Applicant received a Notice of Drawing Inconsistency with the Specification on May 6, 2005. Applicant has amended the specification to include a brief description of Figures 5 and 6. The brief description does not add new matter and adequately represents the information provided therein. Therefore Applicant respectfully requests that this Amendment be entered prior to the issuance of the above-captioned patent application.

In addition, a set of replacement sheets is submitted herewith. Previously on May 23, 2005, Applicant submitted an identical set of replacement sheets. These replacement sheets were inappropriately sent to Mail Box Amendment. Therefore, a second set is enclosed herewith such that they may be included in the issuance of the above-captioned patent application. The drawings do not contain any new matter, they are merely formal drawings of those that were previously submitted. Therefore, Applicant respectfully requests that these Figures in the drawings be entered such that they may be included in the issuance of the patent application.

It is respectfully submitted that this patent application is in condition for allowance, which allowance is respectfully solicited. If the Examiner has any questions regarding this amendment or patent application, the Examiner is invited to contact the undersigned.

Respectfully submitted,

David J. Simonelli, Esq.
